Our Environmental Commitment
Bridge House Supported Living Ltd is committed to operating in an environmentally responsible way and to minimising our impact on the environment wherever possible.

1. Our Commitment

Bridge House Supported Living Ltd recognises that environmental sustainability matters — to our young people, to our communities and to the planet. We are committed to reducing our environmental footprint and to promoting environmentally responsible behaviour across all aspects of our operations.

2. Energy and Carbon

- We take steps to minimise energy use across our premises, including energy-efficient lighting and heating
- We encourage staff and young people to adopt energy-saving practices as part of daily life
- We review our energy consumption as part of our annual operations review
- Where possible, we source energy from renewable suppliers

3. Waste Reduction

- We promote recycling across all Bridge House premises
- We work to reduce single-use plastics and unnecessary packaging
- We dispose of waste responsibly, including the secure disposal of confidential documents
- We encourage young people to develop sustainable habits including recycling and reducing food waste as part of independent living skills

4. Procurement

- Where possible, we purchase from local and ethical suppliers
- We consider environmental impact when making procurement decisions
- We favour suppliers who share our commitment to sustainability

5. Travel and Transport

- We encourage the use of public transport by staff and young people where practicable
- We support flexible and remote working for administrative staff where appropriate
- We consider environmental impact in all travel decisions

6. Our Young People

We recognise that environmental awareness is an important life skill. We support young people to:

- Understand the importance of recycling and reducing waste
- Develop environmentally responsible habits as part of their daily living skills
- Engage with environmental issues relevant to their community

7. Continuous Improvement

We are committed to continuously improving our environmental performance. We will review this statement annually and set new objectives each year. We welcome feedback from young people, staff and partners on how we can improve our environmental impact.

8. Social Value

Bridge House Supported Living Ltd is proud to contribute to social value in our local community. We support young people to develop independence, resilience and the skills to contribute positively to society — including as environmentally conscious citizens.
